Middle Ordic Lexicon — Core Words

Administrative register. Procedural relations, enforced repetition, technical clarity.

- **se lin** — authorized path
- **vu lin** — denied path
- **se set** — authorized structure
- **vu set** — denied structure
- **se ord** — authorized order
- **vu ord** — denied order
- **se mu** — authorized record
- **vu mu** — denied record
- **se xo** — authorized bond
- **vu xo** — denied bond
- **dar ord** — order must be followed
- **dar set** — structure must be followed
- **dar lin** — path must be taken
- **dar mu** — record must persist
- **dar xo** — bond must be maintained
- **dar jur** — law must apply
- **dar te** — truth must be asserted
- **dar ret** — return required
- **dar dur** — continuance required
- **dar al** — total mandate
- **set dur** — procedure ongoing
- **set pun** — procedure enacted
- **set pra** — procedure completed
- **set pos** — procedure scheduled
- **set ret** — procedure restarted
- **set qe** — procedure questioned
- **set na** — procedure void
- **set eq** — procedure aligned
- **set dif** — procedure misaligned
- **set al** — total procedure
- **mu dur** — record retained
- **mu pun** — record fixed
- **mu pra** — record closed
- **mu pos** — record pending
- **mu ret** — record restored
- **mu qe** — record questioned
- **mu na** — record void
- **mu eq** — record aligned
- **mu dif** — record divergent
- **mu al** — total record
- **xo dur** — binding persists
- **xo pun** — binding enacted
- **xo pra** — binding completed
- **xo ret** — binding restored
- **xo qe** — binding unstable
- **xo na** — binding severed
- **xo eq** — binding aligned
- **xo dif** — binding uneven
- **xo al** — total binding
- **xo dar** — binding enforced
- **vi mu** — record reviewed
- **vi set** — procedure reviewed
- **vi ord** — order reviewed
- **vi xo** — bond reviewed
- **vi jur** — law reviewed
- **vi te** — truth reviewed
- **vi qe** — question reviewed
- **vi eq** — alignment verified
- **vi dif** — divergence detected
- **vi al** — total review
- **jur set** — legal structure
- **jur lin** — legal path
- **jur mu** — legal record
- **jur xo** — legal bond
- **jur ord** — legal order
- **jur qe** — legal uncertainty
- **jur na** — law void
- **jur eq** — law aligned
- **jur dif** — law conflicting
- **jur al** — total law
- **lin dur** — flow continues
- **lin pun** — flow enacted
- **lin pra** — flow ended
- **lin pos** — flow pending
- **lin ret** — flow rerouted
- **lin qe** — flow uncertain
- **lin na** — flow blocked
- **lin eq** — flow stable
- **lin dif** — flow disrupted
- **lin al** — total flow
- **te ord** — order declared true

- **te jur** — law declared true
- **te mu** — record declared true
- **te set** — procedure declared true
- **te xo** — bond declared true
- **na qe** — uncertainty denied
- **na dif** — divergence denied
- **na vi** — review denied
- **na ret** — return denied
- **na gra** — mercy denied
- **qe set** — procedure in exception
- **qe mu** — record disputed
- **qe ord** — order challenged
- **qe jur** — law challenged
- **qe lin** — path uncertain
- **qe xo** — bond unstable
- **qe te** — truth questioned
- **qe dur** — continuance uncertain
- **qe ret** — return uncertain
- **qe al** — system-wide exception
- **vi qe** — exception reviewed
- **vi qe set** — procedure exception reviewed
- **vi qe mu** — record exception reviewed
- **vi qe ord** — order exception reviewed
- **vi qe jur** — legal exception reviewed
- **vi qe xo** — bond exception reviewed
- **vi qe te** — truth exception reviewed
- **vi qe dur** — continuance exception reviewed
- **vi qe ret** — return exception reviewed
- **vi qe al** — total exception reviewed
- **ret set** — procedure rolled back
- **ret mu** — record restored
- **ret ord** — order restored
- **ret jur** — law reinstated
- **ret xo** — bond re-established
- **ret lin** — path rerouted
- **ret te** — truth reasserted
- **ret dur** — continuance resumed
- **ret qe** — uncertainty resolved
- **ret al** — system-wide rollback
- **na dur** — continuance suspended
- **na lin** — path suspended
- **na set** — procedure halted
- **na mu** — record frozen
- **na xo** — bond suspended
- **na ord** — order suspended
- **na jur** — law suspended
- **na te** — truth suppressed
- **na qe** — questions silenced
- **na al** — total suspension
- **gra set** — procedure spared
- **gra mu** — record spared
- **gra ord** — order softened
- **gra jur** — law softened
- **gra xo** — bond spared
- **gra lin** — path allowed despite deviation
- **gra te** — truth tolerated
- **gra qe** — doubt tolerated
- **gra dur** — continuance permitted
- **gra al** — system-wide leniency
- **dar set** — procedure enforced
- **dar mu** — record enforced
- **dar ord** — order enforced
- **dar jur** — law enforced
- **dar xo** — bond enforced
- **dar lin** — path enforced
- **dar te** — truth enforced
- **dar dur** — continuance enforced
- **dar ret** — return enforced
- **dar al** — total enforcement
- **eq set** — procedure normalized
- **eq mu** — record normalized
- **eq ord** — order normalized
- **eq jur** — law normalized
- **eq xo** — bond normalized
- **eq lin** — path normalized
- **eq te** — truth normalized
- **eq dur** — continuance normalized
- **eq qe** — uncertainty normalized
- **eq al** — system normalized
- **pra set** — procedure closed
- **pra mu** — record closed
- **pra ord** — order closed
- **pra jur** — law closed
- **pra xo** — bond closed
- **pra lin** — path closed
- **pra te** — truth closed

- **pra qe** — question closed
- **pra dur** — continuance ended
- **pra al** — system closed
- **set dur ord** — procedure repeats order
- **set dur mu** — procedure repeats record
- **set dur xo** — procedure repeats binding
- **set dur lin** — procedure repeats path
- **set dur jur** — procedure repeats law
- **set dur te** — procedure repeats truth
- **set dur set** — procedure self-repeats
- **set dur al** — procedure repeats globally
- **dur set dur** — continuous automation
- **dur dur** — self-sustaining repetition
- **eq lin lin** — paths synchronized
- **eq mu mu** — records synchronized
- **eq set set** — procedures synchronized
- **eq ord ord** — orders synchronized
- **eq xo xo** — bindings synchronized
- **eq jur jur** — laws synchronized
- **eq te te** — truth synchronized
- **eq dur dur** — continuance synchronized
- **eq qe qe** — uncertainty synchronized
- **eq al al** — system-wide sync
- **dur lin al** — path under total load
- **dur mu al** — record under total load
- **dur set al** — procedure under total load
- **dur ord al** — order under total load
- **dur xo al** — binding under total load
- **dur jur al** — law under total load
- **dur te al** — truth under total load
- **dur qe al** — uncertainty under load
- **dur dur al** — continuance strained
- **dur al al** — system saturation
- **lim lin** — path capacity limit
- **lim mu** — record capacity limit
- **lim set** — procedure capacity limit
- **lim ord** — order capacity limit
- **lim xo** — binding capacity limit
- **lim jur** — law capacity limit
- **lim te** — truth tolerance limit
- **lim qe** — uncertainty tolerance limit
- **lim dur** — endurance limit

- **lim al** — absolute system limit
- **al dur lin** — all paths saturated
- **al dur mu** — all records saturated
- **al dur set** — all procedures saturated
- **al dur ord** — all orders saturated
- **al dur xo** — all bindings saturated
- **al dur jur** — all law saturated
- **al dur te** — all truth saturated
- **al dur qe** — all uncertainty saturated
- **al dur dur** — total strain
- **al dur al** — system overload
- **eq lin dur** — flow stabilized
- **dif lin dur** — flow destabilized
- **eq set dur** — procedure stabilized
- **dif set dur** — procedure destabilized
- **eq mu dur** — record stabilized
- **dif mu dur** — record destabilized
- **eq ord dur** — order stabilized
- **dif ord dur** — order destabilized
- **eq al dur** — system stabilized
- **dif al dur** — system destabilized
- **na set dur** — procedure stalls
- **na lin dur** — flow stalls
- **na mu dur** — record stalls
- **na ord dur** — order stalls
- **na xo dur** — binding stalls
- **na jur dur** — law stalls
- **na te dur** — truth stalls
- **na qe dur** — question stalls
- **na dur dur** — continuance stalls
- **na al dur** — system stall
- **te ord dur** — order continuously declared true
- **te jur dur** — law continuously declared true
- **te set dur** — procedure continuously declared true
- **te mu dur** — record continuously declared true
- **te xo dur** — bond continuously declared true
- **te lin dur** — path continuously declared true
- **te dur dur** — continuance continuously justified
- **te al dur** — system continuously justified
- **te qe dur** — doubt continuously reframed
- **te na qe** — uncertainty declared false
- **na qe dur** — doubt repeatedly denied
- **na dif dur** — divergence repeatedly denied
- **na vi dur** — review repeatedly denied

3

Term	Meaning
na ret dur	return repeatedly denied
na gra dur	mercy repeatedly denied
na shae dur	calm repeatedly denied
na mu dur	memory repeatedly denied
na xo dur	bond repeatedly denied
na te dur	truth selectively denied
na al dur	systemic denial
shae na	calm suppressed
gra na	mercy suppressed
qe shae na	quiet doubt suppressed
qe gra na	merciful doubt suppressed
shae eq dur	calm normalized
gra eq dur	mercy normalized
qe eq dur	doubt normalized
es shae na	being denied calm
es gra na	being denied mercy
es qe na	being denied doubt
vi te ord	order verified as true
vi te jur	law verified as true
vi te mu	record verified as true
vi te set	procedure verified as true
vi te lin	path verified as true
vi te dur	continuance verified as true
vi te al	system verified as true
vi na qe	reviewed absence of doubt
vi na dif	reviewed absence of divergence
vi na ret	reviewed absence of return
dur te ord	truth through repetition of order
dur te jur	truth through repetition of law
dur te set	truth through repetition of procedure
dur te mu	truth through repetition of record
dur te xo	truth through repetition of bond
dur te lin	truth through repetition of path
dur te dur	truth through repetition itself
dur te al	systemic truth by repetition
dur na qe	persistent suppression of doubt
dur na gra	persistent suppression of mercy
gra ord dur	order softened but enforced
gra jur dur	law softened but enforced
gra set dur	procedure softened but enforced
gra mu dur	record softened but enforced
gra xo dur	bond softened but enforced
gra lin dur	path softened but enforced
gra te dur	truth softened but enforced
gra qe dur	doubt tolerated but neutralized
gra na ret	forgiveness without return
gra al dur	systemic soft control
al te ord	total belief in order
al te jur	total belief in law
al te set	total belief in procedure
al te mu	total belief in record
al te xo	total belief in bond
al te lin	total belief in path
al te dur	total belief in continuance
al te al	total belief in system
al na qe	total absence of doubt
al na gra	total absence of mercy
pra set dur	procedure completed and sealed
pra mu dur	record completed and sealed
pra ord dur	order completed and sealed
pra jur dur	law completed and sealed
pra xo dur	binding completed and sealed
pra lin dur	path completed and sealed
pra te dur	truth completed and sealed
pra qe dur	question closed permanently
pra dur dur	continuance finalized
pra al dur	system finalized
jur na xo	lawful severance of bond
jur na lin	lawful removal of path
jur na dur	lawful cessation
jur na mu	lawful deletion of record
jur na gra	lawful denial of mercy
jur na shae	lawful denial of calm
jur na ret	lawful denial of return
jur na qe	lawful suppression of doubt
jur na te	lawful suppression of truth
jur na es	lawful negation of being
na mu pra	record erased and closed
na lin pra	path erased and closed
na xo pra	bond erased and closed
na dur pra	continuance erased and closed
na qe pra	question erased and closed
na gra pra	mercy erased and closed
na shae pra	calm erased and closed
na te pra	truth erased and closed
na ord pra	order erased and closed

- **na al pra** — systemic erasure
- **eq na mu** — erasure normalized
- **eq na lin** — path loss normalized
- **eq na xo** — bond loss normalized
- **eq na dur** — cessation normalized
- **eq na qe** — silenced doubt normalized
- **eq na gra** — absence of mercy normalized
- **eq na shae** — absence of calm normalized
- **eq na te** — absence of truth normalized
- **eq na ord** — absence of order normalized
- **eq na al** — total disappearance normalized
- **dur pra ord** — order persists only as completion
- **dur pra jur** — law persists only as completion
- **dur pra set** — procedure persists only as completion
- **dur pra mu** — record persists only as completion
- **dur pra xo** — bond persists only as completion
- **dur pra lin** — path persists only as completion
- **dur pra te** — truth persists only as completion
- **dur pra dur** — continuance persists only as inertia
- **dur pra qe** — doubt persists only as trace
- **dur pra al** — system persists only as habit
- **vi pra mu** — record reviewed after closure
- **vi pra set** — procedure reviewed after closure
- **vi pra ord** — order reviewed after closure
- **vi pra jur** — law reviewed after closure
- **vi pra xo** — bond reviewed after closure
- **vi pra lin** — path reviewed after closure
- **vi pra te** — truth reviewed after closure
- **vi pra qe** — question reviewed after closure
- **vi pra dur** — continuance reviewed after closure
- **vi pra al** — system reviewed after closure
- **pra** — closed
- **na** — denied
- **eq** — normalized
- **dur** — continues
- **ord** — order
- **jur** — law
- **set** — procedure
- **mu** — record
- **al** — system
- **. . .** — administrative silence

Notes: Middle Ordic stabilizes meaning through repetition. Truth becomes compliance; calm becomes absence of deviation.
